Proposed BPG Resolution for JTC1/SC7 – South Africa meeting, 1998.

Title conventions for JTC1/SC7 Standards and Technical Reports

Whereas a consistent set of conventions for titles is necessary to support a cohesive system of JTC1/SC7 standards, the following activities have been identified:

- (1) JTC1/SC7 to maintain “Title Conventions for JTC1/SC7 Standards and Technical Reports” as an JTC1/SC7 standing document,
- (2) Review New Work Item Proposals for consistency with JTC1/SC7 title conventions,
- (3) Alignment of titles of in-work JTC1/SC7 projects with the JTC1/SC7 title conventions, and
- (4) Alignment of titles of existing JTC1/SC7 standards and technical reports with the JTC1/SC7 title conventions upon their revision.

JTC/SC7 therefore instructs its Secretariat to:

- (1) Ensure that the proposed set of new titles proposed in SC7-BPG-129, and contained in document 07N1906 are used, and
- (2) Enforce the agreed upon title conventions as described in document SC7-BPG-130, and most recently in 07N1907 for all new titles, and
- (3) Implement the new titles effective immediately.
