About Lima

Lima is the capital of Peru. Lima was founded in 1535 and in a short period of time became the most important city in the Americas. Today, there are more than eight million inhabitants, and the city shelters immigrants from all corners of the globe, which has transformed it into a mixed city par excellence. In the historic centre, placed by UNESCO on the World Cultural Heritage List, you can visit splendid samples of Colonial architecture like the Cathedral, the Convent of Santo Domingo, and the Convent of San Francisco as well as fantastically wood carven balconies. Lima is also an inexhaustible source of culture, demonstrated by the existence of numerous and varied museums like the National Museum of Archeology, Anthropology, and History and the Rafael Larco Herrera Archeological Museum, which guards priceless Incan and pre-Incan treasures.

Situated in the heart of the city are great archeological monuments such as the Huallamarca Huaca or the Pucllana Huaca. And, on the outskirts of Lima facing the ocean is Pachacamac, the most important pre-Incan sanctuary on the coast, built in the third century A.D. Some of the other great attractions are the beaches where you

can do all types of aquatic sports, enjoy the sun, or simply gaze at the mesmerizing beauty of the Pacific Ocean.

During this trip, you must also remember to sample one of the best cuisines in the world. The city offers a wide variety of restaurants and inviting locales where you will be able to taste delicious dishes, the result of the mixing of European, African, Asian, and Andean cuisines.

Transportation

Lima's **Aeropuerto Internacional Jorge Chávez** (LIM; 517-3100; spanish version: www.lap.com.pe or english version: http://www.lap.com.pe/lap_portal/ingles/index.asp) is in Callao. Departure taxes are US\$28.10 for international and US\$6.05 for domestic flights.

Lima is well connected with most cities in [South America](#). There are regular flights to [Ft. Lauderdale](#), [Miami](#), [Newark](#), [Atlanta](#) and [Houston](#) in the US. There are daily flights from [Amsterdam](#), [Madrid](#), [Miami](#), [Bogotá](#), [Medellín](#), [Quito](#), [Santiago de Chile](#) and [Toronto](#) as well.

There are good connections by [TAM Airlines](#) from São Paulo in Brazil.

Lima is connected by highway to every country that borders Peru.

A reasonable price for a taxi service between the airport and Miraflores is about \$20 to \$25. By custom, taxis do not have meters; rather, the fare should be negotiated before boarding the taxi, or if you request one by phone, at booking time, so make sure you have that cleared up in advance. If asking for a ride on the street, don't get into the cab before a rate is negotiated. As a foreigner, don't EVER get into shared taxis.
